Summary

Full Stack Engineer with expertise in React.js, Next.js, Node.js and RESTful APIs. Passionate about developing scalable and efficient web applications using modern JavaScript and TypeScript frameworks. Experienced in collaborating within Agile teams and delivering high quality, maintainable code in fast paced environments. Constantly eager to learn and adopt new technologies to enhance development processes and project outcomes.

Professional Experience

Associate Software Engineer, XGen Group 11/2023 – Present

- Built dynamic and scalable web applications using Vue.js 3 and Bootstrap, improving user experience and application performance.
- Developed key modules for a Loan Origination System using React.js, Node.js, Express.js, and Material UI, ensuring efficient workflows and clean UI design.
- Contributed to the Nissan Finance project with a focus on performance optimization and scalability, working with Next.js, Node.js, Express.js, and Material UI.
- Designed and implemented features for a Customer Portal application using Bun.js and Express.js, improving system responsiveness.
- Built an SMS-Email Service leveraging Node.js, Express.js, and RabbitMQ to enable reliable asynchronous messaging and increase service reliability.

Intern Software Engineer, XGen Group 04/2023 – 11/2023

- Developed dynamic and scalable user interfaces using Vue.js 3 (Composition API) and Bootstrap, ensuring responsive and modern application designs.
- Implemented state management solutions with Pinia, optimizing application data flow and improving performance.
- Integrated RESTful APIs to enable seamless communication between frontend and backend services.
- Collaborated with the development team to deliver high-quality, maintainable code

Projects

Tour Travel (Personal), React.js | Tailwind CSS

Built a dynamic and responsive travel booking platform with React and Tailwind CSS, focusing on seamless navigation and user experience.

Elevate Estate (Academic), React.js | CSS

Developed a responsive real estate listing web application using React.js and custom CSS. Designed clean and intuitive UI layouts with dynamic property displays and search filters. Focused on performance optimization, cross-device responsiveness, and improving overall user engagement.

Securex Profile App (Personal), *Next.js Tailwind CSS*

Created a secure and scalable profile management app for a security company, leveraging Next.js server-side rendering and Tailwind CSS for modern UI design.

Ticketing System (Academic), *Angular | Spring Boot | MongoDB*

Built a full-stack ticket management system using Angular, Spring Boot, and MongoDB. Implemented advanced multithreading and concurrency techniques to maintain high system performance under heavy load. Designed a scalable and reliable architecture with robust APIs and efficient ticket workflows to improve business operations.

Blog Platform (Personal), *Next.js | Node.js | Express.js | MongoDB | Tailwind CSS | shaden/ui*

Built a full-stack blog platform supporting user authentication, CRUD operations, and responsive UI using modern tools like Next.js, Tailwind, and shaden/ui components.

Education

BSc (Hons) Computer Science, <i>University of Westminster</i>	4th Year
GCE Advanced Level, <i>Royal College Colombo</i>	2021
GCE Ordinary Level, <i>Royal College Colombo</i>	2018

Skills

Technical Skills • Front-end: React JS, Next JS, Vue JS, Bootstrap, Tailwind CSS, Material UI, Shaden/UI, HTML5, CSS3, Javascript, Typescript • Back-end: Node JS, Express JS, Bun JS, Springboot, RabbitMQ • Databases: SQLite, MongoDB, MySQL, Redis	Soft Skills • Problem-Solving • Communication • Adaptability • Teamwork and Collaboration • Attention to Detail
---	--

Extracurricular Activities

Senior Prefect, Royal College	Sports coordinator	Athletics (Throwing Events) Provincial and All-Island level wins
Weightlifting National level wins
